SUMMARY

Full-Stack Developer with hands-on experience in building scalable web applications, REST APIs, Database management, AI applications, and machine learning solutions using Django, FastAPI, Flask, and database integration tools like PostgreSQL. Passionate about backend development, problem-solving, and delivering efficient software solutions.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C

Frameworks & Libraries: Django, FastAPI, Flask, React.js, Node.js, Pandas, NumPy, Scikit-learn

Database: PostgreSQL, MongoDB, SQLite, SQL

Web Technologies: HTML5, CSS3, JavaScript, Tailwind CSS, REST APIs, WebSockets, JWT

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Render, Vercel, GitLab CI/CD, Railway

TRAINING & EXPERIENCE

Summer Intern | **Hindalco Industries Ltd.** | <https://www.hindalco.com> Jul 2025 – Aug 2025

- Developed a Python-based machine learning solution for analyzing operational datasets and performance trends.
- Performed data preprocessing, feature engineering, and model evaluation to improve prediction accuracy.
- Applied data analysis techniques to generate actionable insights for decision-making.

Python for Data Science | **United Institute of Technology** | <https://united.ac.in> Aug 2023 – Sept 2023

- Utilized Pandas and NumPy for data preprocessing, cleaning, and transformation of structured datasets.
- Conducted exploratory data analysis (EDA) and visualization to identify trends and patterns.
- Implemented machine learning workflows including feature selection and model evaluation techniques.

PROJECTS

Live Chat App — Real-Time Chat Application live-chat-app-rho.vercel.app

Scalable real-time communication platform with WebSocket-based multi-room chat and integrated AI chatbot studio

- Tech Stack:** Python, JavaScript, React, FastAPI, WebSockets, Tailwind CSS, OpenRouter API, GitLab CI
- Built a real-time chat application using FastAPI and WebSockets, handling 500+ rooms with in-memory sessions.
- Integrated an AI chatbot with switchable personas using OpenAI API integration for customizable AI conversations.
- Automated CI/CD pipeline using GitLab CI for Vite build verification and Python syntax checks.

WorkNest — Team Collaboration & Project Management Hub <https://web-production-c0c5a.up.railway.app/>

Collaborative project management platform with role-based access, task tracking, and interactive dashboards.

- Tech Stack:** Python, Flask, Jinja2, PostgreSQL, SQLAlchemy, JWT Auth, JavaScript, Gunicorn
- Built a full-stack project management platform enabling task assignment, progress tracking, and team collaboration.
- Implemented JWT authentication and role-based access control with PostgreSQL-backed data management.
- Built interactive dashboards with real-time project insights and task monitoring to enhance productivity.

Type-2 Diabetes Prediction System — AI-Powered Healthcare Web App [Live Link](#)

ML-powered diabetes risk prediction app using clinical health parameters and predictive analytics.

- Tech Stack:** Python, Flask, Scikit-learn, MongoDB, HTML, CSS, JavaScript, Gmail SMTP
- Developed a machine learning application for diabetes risk prediction using Gradient Boosting.
- Implemented secure authentication and OTP verification workflow.
- Engineered clinical features including BMI, Glucose and Insulin for improved accuracy.

EDUCATION

Bachelor of Technology in Computer Science and Engineering 2022 – 2026

United Institute of Technology, Prayagraj — CGPA: 8.1

CERTIFICATIONS

Internship Certificate – Hindalco Industries Ltd. (Aditya Birla Group) [Link](#) 2025

Python & Django Framework – Udemy [Link](#) 2024

Python for Data Science – United Institute of Technology [Link](#) 2023
